JICA Solution Sales Representative Program 2018 Vendors' List

Version 1

2 May 2018

Summary

Company Name	ICT Sector	Website
1. GunPower	Simulation system – Combat Games System	http://gunpower.com
2. SUHWOOMS	Total Smart Farm – FM, EM & Agri. Cultivation M.S	www.suhwooms.com
3. Tababa	IT Wearables – Smart safety backpack	http://www.lookpaak.com/
4. Olbemi-House	3D animations – CGI	http://olbemi-house.com/
5. JTF	IOT – Healthtech	http://jtfis.com/
6. GOBACK TECH	Smart Traffic, Transport – IVS – Big Data	www.goback.world
7.Farm Air	AgTech – Big Data & Analytics	n/a
8. JiNi	FinTech – wPOS and Automated Service	http://www.w-jini.com
9. NJ COMPANY	Gaming	http://www.fountaingames.net
10. Let's Farm	AgTech – Big Data	n/a
11. MediengSystem	Integrated Food Management System – Smart Farm	http://neo-farm.net http://medieng.com/
12. 30Days	Digital Content & Interactive Media Production	https://www.ct30days.com/corporation-field
13.ChengChuDongBang	Interactive Digital Content	n/a

GunPower

Company Establishment Year	2005
Interested Market	Singapore
Contact Point	Shin Bok Sub
Mobile	+82 10 9088 0096
Email	shinbs@gunpower.com

Simulation system – Combat Games System

Product Name	Description
GPR 1300	This gives an couple multiple applications such as close quarter battle (CQB), Military Operations in Urban Terrain (MOUT) and for first-person shooter (FPS) to give a real fresh experiences. This is a virtual war simulation whereby the 6-mm BB bullets of AirGun and IR-LED are used.
Smart Shooting System – GPR	This is a Simulation shooting system is a shooting range that turns busy streets in cities into leisure venue. Construct and produce game fields, obstacles, communications equipment and GPR system. Customised package system are provided as well.

SUHWOOMS

Company Establishment Year	2016
Interested Market	Singapore, Vietnam, Malaysia
Contact Point	Jun Gil Lee
Mobile	+82 10 3542 6125
Email	jeykey@suhwooms.com

Total Smart Farm – FM, EM & Agri. Cultivation M.S

Product Name	Description
ICT Smart Farm for Agriculture Cultivation	Container typed Mushroom Cultivation System based on IoT and ICT application Four Season Cultivating regardless external environment condition. Remote Monitoring and Control based on Big Data.
Electric monitoring system	This is a system that detects the Heat Accumulation state, Spark Discharge, and Fire control condition before ignition. This system supports administrators to grasp the state of deterioration in real time and to prevent and complement before the occurrence of electric fire.

Tababa

Company Establishment Year	2013
Interested Market	Singapore, Japan & Vietnam
Contact Point	Lee Gi Young
Mobile	+82 10 3300 5729
Email	tababa@naver.com

IT Wearables – Smart safety backpack

Product Name	Description
LookPaak	Premium BackPack innovative while meeting the basic functionality of the bag. Front LED can be controlled by the mobile app. Depending on your personality, express your favourite images and phrases in the world language. Display signals on LED through GPS enabled application to prevent accidents and increase safety.

Olbemi-House

Company Establishment Year	2009
Interested Market	ASEAN
Contact Point	Hyo Sang Bae
Mobile	+82 10 7770 7691
Email	bulling@hanmail.net

3D animations – CGI

Product Name	Description
Subin Story Season 1 & 2	Olbeni-House.,Ltd aims to being global corporation focused at animations producing and character license business. Provides one-stop service from planning to production based on many experience of producing and excellent knowhow in CGI field. As a production work that describes adventures of children growing up through noisy troubled stories, this animation is for family and educational animation

JTF

Company Establishment Year	2014
Interested Market	Singapore
Contact Point	Kim Bo Min
Mobile	+82 10 4584 7128
Email	jtf_leader@naver.com

IOT – Healthtech

Product Name	Description
Signal O	Smart posture monitor base. We can let computer user know whether their seating posture is correct and how long user was seating by real time monitoring to manage musculoskeletal system disorder. Includes Wireless charging + USB Hub + Stereo speaker + AUX + MIC

Delivering necessary services to a kitchen or waiter, jiniORDER can resolve the lack of the workforce by supporting quick and accurate waiter's jobs. It takes less time for customers to place an order, which thus speeds a turnover of services. In addition, this electronic waiter helps customers easily get information about explanation of the menu, images, etc., and thus choose the menu.

NJ Company

Company Establishment Year	
Interested Market	2009
Contact Point	Nam Jin Joo
Mobile	+82 10 2975 0134
Email	njjoo@njcompany.co.kr

Gaming

Product Name	Description
Fountain Games	Gaming peripherals with TradeMark brands.

Let's Farm

Company Establishment Year	2017
Interested Market	Singapore, China, and Taiwan
Contact Point	Gyeong Hyeon Kim
Mobile	+82 10 3093 0146
Email	sesangmake@naver.com

AgTech – Big Data

Product Name	Description
Farming Box	It's plant grower box using IoT sensor and plant growth led. Farming box can check light, humidity, soil humidity and real-time camera monitoring.
Farm-Bot	It's farming robot on the ground or in the green house. Farm-bot can give water and fertilizer using x, y, z coordinate in this space. Farm-bot move by x, y, z axis and you can show position of crop or plant on board in website and app. Finger part can has soil humidity sensor and it has light sensor, humidity sensor and realtime camera.
Agricultural Science Bigdata	Agricultural Science Bigdata is site about crop realtime sales price, weather, regional soil information, agricultural news and my farmbot/farmingbox sensor value

Medieng System

Company Establishment Year	2014
Interested Market	Vietnam
Contact Point	Gi Seon Park
Mobile	+81 10 5063 2357
Email	whstar83@medieng.com

Integrated Food Management System – Smart Farm Automation

Product Name	Description
NeoFarm	The NeoFarm is a smart farm system installed in greenhouse. It provide to monitor environmental data (such as temperature, humidity, CO2) in greenhouse and to control devices (such as motor, light, sprinkler) at remort place with smartphone. The NeoFarm will help your farming for less handled
Integrated Localfood System	The Localfood system provide nutritive and fresh foods that daily produced to customer. This system be traced food produced when, where, by who and then who bought. The Localfood system will be made healthy and happy life style both customers and farmers

30Days

Company Establishment Year	2012
Interested Market	Malaysia, Singapore, Vietnam,
Contact Point	Dae Gyu Song
Mobile	+82 10 2952 8956
Email	ceo@ct30days.com

Digital Content & Interactive Media Production

Product Name	Description
Drones-based Fusion Media Art Show	Implement up to 30 drone cluster flights in the interior space with S/W control based on IR sensor location recognition & creative display of the drones for performance and entertainment content
Drone Lighting Decoration KIT	A droned lighting decoration DIY kit that provides the ability to control the lighting of a real-time drones in an application
Science and technology-based convergent display / performance contents	Digital performance and exhibition content solution and content that combine high technology: 3D Projection Mapping, Hologram, Interactive media, VR(virtual Reality)/AR(augmented reality)

ChengChuDongBang

Company Establishment Year	2016
Interested Market	Vietnam, China
Contact Point	Tae Wee Choi
Mobile	+81 10 3682 8290
Email	gunakrnd@naver.com

Interactive Digital Content

Product Name	Description
Interactive Digital Content	Interactive digital content with AR, VR, 4D
Digital Signage Solution	Digital Signage Solution for Member's Face/Voice recognition, Proof of work, Tourist Information etc.
Blockchain System for urban regeneration area	Blockchain System for economic activities to improve the quality of life of indigenous peoples in urban regeneration area
